Dynamic and Persuasive Leader's Training for the 21st Century

Successful participants will take newly developed skills from LeadershipWest back to their workplace to enhance their business and personal success.

LeadershipWest is an exclusive one-day-a-month series developed by business leaders to better prepare new leaders for successful outcomes with today's business challenges.

Using adult training theories and practical hands-on techniques, knowledgeable facilitators from ChamberWest's business community and government entities take participants into real workplace settings to train and observe. Participants will leave each day-long session having received practical applications and tools to implement, which can add immediate value to your position and your company.
